Android

1. Click on **Home>Apps>Settings**
2. Click on **Wi-Fi**
3. Click on ***Eurest Dining Services***
4. Enter in the *Network Key: foodisgood*

Wired Internet

There are several network ports that you can connect into in the event that your laptop does not have a wireless card or you have a particular device that needs to be plugged directly into the Internet. All you will need is the location and an Ethernet patch cable (CAT 5).

Freight Depot Network Port Map:

N = Network
P = Power
M = Microphone jack

Blue Room

N = Network
 P = Power
 M = Microphone jack

Foyer and Coat Closet Area

N = Network
 P = Power
 M = Microphone jack

Freight Depot

N = Network
 P = Power
 M = Microphone jack

Power Availability

The Freight Depot only has Type B/NEMA 5-15 15A/125V outlets.

Q & A

Q: I have a webcast radio device that I need to plug in to record and broadcast my show. It needs a connection to the Internet. Can I use the connections in the Freight Depot.

A: As long as the device can connect with an Ethernet/CAT 5 Patch Cable, you will get a good connection to the Internet. Check the Network Drop Location Map to see where there are network drops to plug in. You can coordinate with the Eurest Catering Coordinator if you need assistance setting up a table for your equipment.

Q: I connected to the wireless network, but I keep on getting a “Page could not be displayed” message. What else can I try?

A: You can try the following

- Check to see if your device’s wireless is turned on
- Restart your Device
- Disconnect and Reconnect with the Eurest Dining Services Network
- Check your Device’s Firewall settings to see if it is allowing connection to the Internet
- Check to see if your Device has a static IP address

Q: I have a projector and a laptop that I want to setup in the Freight Depot to show a website. What do I need to do?

A: You can connect to the Internet wirelessly or you can plug into one of the network ports. Check the Freight Depot map (p.8) and look for a location that has a “N”. Consult with the Eurest Catering Coordinator if you need a table, extension cord, etc.

Q: I want to hook up my laptop to the Freight Depot’s sound system. How can I do that?

A: Consult with the Eurest Catering Coordinator for assistance

Helpful hints

- Prior to your Event, take some time to discuss what you have planned with the Eurest Catering Coordinator. They can provide assistance and helpful suggestions.
- Allow yourself some time before the presentation/meeting starts to setup and make sure everything is working correctly.
- Make sure to bring extra cables just in case.
